

Salford Foundation is an organisation that supports the vocational, personal, social and academic development of young people and adults in Salford and other boroughs of Greater Manchester. It provides opportunities for those in education, business and the wider community to work together for their mutual advantage.

Business Education Partnership

The Foundation's education business programmes currently delivered include a world of work days, enterprise activities and traditional and extended work experience.

All contribute to the work related learning agenda and provide opportunities for personal development of students so that they acquire skills and knowledge to equip them for the world beyond the classroom. Through enterprise events young people develop an awareness of business practice and the importance of skills such as teamwork, problem solving, organisation and resilience.

ADAPT

Salford Foundation is the lead partner, providing committed case workers to young people. We offer

practical support, advocacy and information. Pro-active work is undertaken with young people to build their skills, confidence and resilience – ensuring they can resettle and progress effectively. ADAPT work with public sector partners and local businesses to develop 'opportunity hubs' which will provide developmental and vocational opportunities for ex-offenders. Young people will have the opportunities to develop vocational skills in inspirational working environments, providing them with tangible progression routes and increased aspirations.

National Citizen Service

National Citizen Service (NCS) is a life-changing experience for 16 and 17 year olds. The scheme is available to people

from all backgrounds and brings together those who might otherwise not have met. They get the chance to do outdoor activities, meet new people and have the chance to give something back to their communities. By taking part they learn new skills and have a great experience they can put on their CVs or college applications.

Inspired to Aspire

A service dedicated to supporting 14-19 year olds currently not in or at risk of not being in education, employment or training. Working closely with businesses across Media City and Spinningfields, we provide real life vocational experiences as well as the support and structure to overcome barriers to engagement. Opportunities include careers advice sessions, work placements and group workshops.
